DETAILED ACTION

Allowable Subject Matter

1. Claims 1- 20 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1 and 15 , for example which include a device for adjusting position of a lens along an optical axis of the lens and the device having a lens housing and two knobs and a coupler for coupling the lens housing to the second knob to prevent the lens housing from rotating relative to the second knob when the first knob is rotated (claim 1); and a lock coupled to the objective cell and the optical system to prevent the objective cell from rotating relative to the optical system (claim 15).

Drawings

3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because some figures are shadow and hand written numbers. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The

corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
